TurnKey case comes with retracting handles and wheels for quick and easy transportation. Rugged case provides great protection easy setup and for easy system deployment and unsurpassed performance.

## How the System Works

- 1- Easily connects to any existing sound system or any microphone directly with included Universal Connection Kit
  - 2- With the Monitoring Unit your interpreter has the advantage of being able to listen directly to presenter and can now hear better, concentrate, and overall do a better job of interpreting
  - 3- The interpreter's microphone easily connects to transmitter. Transmitter has a 500 foot range for maximum clarity and sound quality
  - 4- Each audience member uses their own receiver and headset and can listen to their language clearly with individual volume level adjustment
  - 5- Making equipment management and transportation easy this rugged military-grade case will keep your investment safe for years and years to come
- This system can be configured easily to any number of receivers (up to 2,000) and can manage up to 8 languages - LIFE-TIME TRANSFERABLE WARRANTY
