

**// Powerful // Lightweight // Portable //**

**1 Any Sound System**

In this configuration your presenter uses any existing sound system you already have and with one cable from the sound system the interpreter can hear better, concentrate better and can do a far better job of interpreting because they can hear the presenter clearly and accurately in their headset.

One cable is all it takes to be up and running in just 2 minutes!!

**2** Interpreter connects their headset microphone to the Monitoring Unit/s receives a feed of the presenter's voice in their headset. Your interpreters can now hear clearly as has the advantage of listening directly to the presenter.

**3** Interpreters headset microphone connects directly to the transmitter in front of system. Each case can easily manage two languages and additional cases can be interconnected with our single cable design to add more languages.

**4** Audience uses receivers with comfortable dual-headsets to listen to their language and control their volume.

**5** Lightweight case provides great protection easy setup and for easy system deployment and unsurpassed performance.

Carrying cases includes storage space for wireless microphones and interpreter headset microphones.

**Accessories**

Wired or wireless microphones as well as portable PA's can easily be added to VPT-OS® system for an all-in-one solution

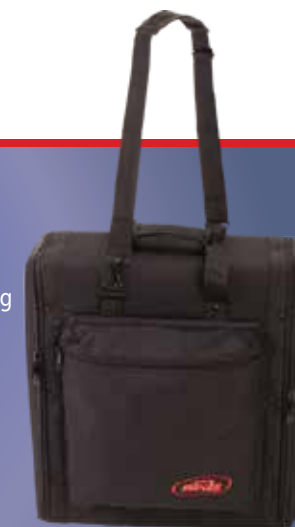

**SETS UP IN ONLY  
2 MINUTES!!**

**This system is designed to work as follows:**

- 1** Connect the power plug to any standard outlet. Connect to your sound system and plug in your interpreter headsets and you are up and running!
- 2** Your interpreter has the advantage of being able to listen directly to presenter and can now hear better, concentrate better, and overall do a better job of interpreting
- 3** The interpreter's microphone easily connects to transmitter. Transmitter has a 500 foot range for maximum clarity and sound quality
- 4** Each audience member uses their own receiver and headset and can listen to their language clearly with individual volume level adjustment
- 5** Making equipment management and transportation easy this case will keep your investment safe for years and years to come
