

1 Integrated Wireless Microphones

In this configuration your presenter uses the included wireless microphone which is incorporated into the pictured VPT-OSPlus case. (can be connected to any existing sound system).

One cable is all it takes to be up and running in just 2 minutes!!

**SETS UP IN ONLY
2 MINUTES!!**

2 Interpreter Monitoring Unit/s receives a feed from the built-in microphone/s which are pre-wired and ready to go. Your interpreters can now hear better, and now can do a better job of interpreting.

4 Audience uses receivers with comfortable Dual headsets to listen to their language and have control of their volume levels

Pictured here is a one(1) language system with two (2) wireless microphones completely pre-wired and mounted in our custom TurnKey case for maximum portability and performance

3 Interpreters headset microphone connects directly to transmitter and monitoring unit in front of system. Each case can easily manage two languages and additional cases can be interconnected with our single cable design to add more languages.

5 Lightweight case provides great protection easy setup and for easy system deployment and unsurpassed performance.

Carrying cases includes storage space for wireless microphones and interpreter headset microphones.

This system is designed to work as follows:

- 1** Connect the power plug to any standard outlet. Turn on your wireless microphones and plug in your interpreter headsets and you are up and running!
- 2** Your interpreter has the advantage of being able to listen directly to presenter and can now hear better, concentrate better, and overall do a better job of interpreting
- 3** The interpreter's microphone easily connects to transmitter. Transmitter has a 500 foot range for maximum clarity and sound quality
- 4** Each audience member uses their own receiver and headset and can listen to their language clearly with individual volume level adjustment
- 5** Making equipment management and transportation easy this case will keep your investment safe for years and years to come

LIFE-TIME TRANSFERABLE WARRANTY This system can be configured easily to any number of receivers (up to 4,000) and can manage up to 8 languages
